Level fuel shed	3	
Wash stand in SOS	4	
Water line to rifle range	2	
Build shovel and rake rack	3	
Mow grass	3	
Clean up camp fire bowl	2	

Painting Projects

Paint campmasters and rotary
 Paint dining hallway Almond Cream
 Paint men's stall in Dining Hall

Number 1's are Piers (Aqua and Boating), Brush removal, Tents for Tiger Safari, Paining outside of buildings and Switching the Dining Hall Doors.

Pier Crew: Swim suit and towel. Aqua Crew will put in the Swimming pier, Fishing Pier, Boat pier and Raft. Boating Crew will put in the Boat pier. **NO boats will be put in until Summer Camp Staff Week.**

Brush Removal Crew: Long pants, Long sleeve Shirt, Work boots, Gloves and eye protection would be nice. (We will start with Eagle Point, Sun Set Ridge, Fox Den, High Point and then move down to the Shooting Sports Area that is not finished). Bruce is working on getting 2 wood chippers for the brush and I will get a chain saw crew to cut logs for camp use with the rest of the left over brush made into chips for camp.

Painting Crew: Paint brushes and Old clothes. I am asking they supply paint brushes in hope of them taking better care of cleanup. We are still missing the Green 8' ladder form the last OA weekend which I have replaced but still hope it magically appears. We will work on finishing the Dining Hall, Touch up the OA cabin and start Rotary.

If we get time I like to see the water line installed during this weekend. If not I will try and do it during Summer Camp with OA help.
